

Smoky Mountains Hiking Club Collection McClung Historical Collection

The Smoky Mountains Hiking Club (SMHC) Collection was placed in the McClung Historical Collection, Knox County Public Library System, in 1956. The collection includes Board Minutes from 1929-1968, correspondence from 1929-1968, President's Files from 1969-1997 and as received, "Happy Trails" (March 1992-August 1995), publications beginning February 1996 highlighting Appalachian Trail (AT or A.T.) news, Hike Notices (later known as Newsletters) from 1925, subject files, Ridgerunner Patrol Reports and Caretaker's Reports (1990-1997, and as received), photographs and slides, and a complete set of Handbooks from 1926 to 1999 (and as received).

The arrangement of the earliest correspondence and Board Minutes of the Smoky Mountains Hiking Club Collection reflects a subject arrangement that had been in place prior to, and for a number of years after, their deposit with the McClung Collection. Starting with material created in 1969, the documents are filed under the heading "President's Files" for the year in which the records were created, rather than being divided by correspondence and Board Minutes, as was done with the earlier records. The documents in the President's Files are left in the same groupings in which they are received. The manuscripts are placed in acid-free folders upon receipt. To accommodate the active, growing nature of the Smoky Mountains Hiking Club Collection, the boxes are numbered within each category, instead of using a consecutive numbering system.

The club's correspondence starts in 1929. In 1983, SMHC member Anne Broome (Mrs. Harvey Broome) made an itemized, chronological listing of the correspondence files for 1929 through 1968. A copy of her listing is included with each of those files. With the addition of material added to the SMHC Collection in 1999, these lists are no longer complete. Correspondence after 1968 is filed with the President's Files.

Board minutes from 1929-1968 are filed under the heading 'Board Minutes.' Starting in 1969, the Board minutes are filed with the President's Files by year of creation. The contents of the President's Files are arranged in chronological order, with the exception of several years in the 1980s and 1990s, when the president's arranged their papers under subject categories. The Board Minutes and President's Files include the organization's financial statements, agendas, conservation news, committee reports, and correspondence.

Subject files include information on the cabin in the Greenbrier, Fontana Road, the Olmsted report on "Wilderness Values in the Great Smoky Mountains," the Greenbrier Cove report, and the 1966 Wilderness Hearings on the Great Smoky Mountains National Park, and many other topics. The 1937 charter of incorporation and the constitution and by-laws of the Smoky Mountains Hiking Club are with the subject files, as is the record book signed by hikers to Mt. LeConte between 1922 and 1924. An itemized listing appears under the heading "Subjects" in the Finding Aid.

The copper box that originally held the Mt. LeConte record book is housed as an artifact with the SMHC Collection. Two copper engraving printing plates, the club emblem designed by Louise Smith in 1924 and a sketch of a moonlit trail designed by Robert Lindsay Mason, are found with the artifacts. There are two tape recordings in the collection: "A History of Cades Cove" by Henry R. Duncan in 1955, and talks by Duncan and others on Greenbrier Cove recorded in 1956. The 1956 tape recordings were transcribed in Spring 2000.

In 1999 the Smoky Mountains Hiking Club established a web page on the Internet. Much of the information in this finding aid may be viewed at www.pageright.com/smhc.

**From Notes by Ken Warren on the Copper Engraving Printing Plates
(Artifacts Box 1)**

Added to the Smoky Mountains Hiking Club Collection by Ken Warren, SMHC Handbook Editor, via Anna Marie Stefanick. September 7, 1999. Mr. Warren's original notes on these two items are in Artifacts Box 1.

Copper engravings used in the printing of the SMHC Handbooks for many years, until printing techniques used since 1961 retired them from active use.

Engraving 1: Emblem for the Smoky Mountains Hiking Club designed in 1924 by Louise Smith. Her design won the contest held to create a unique emblem for the club. The design features an inverted triangle, symbolizing the SMHC's early connections with the YMCA. A circle encloses a mountain scene and represents the SMHC. The emblem appears on the cover of the SMHC Handbook, and in more recent years, has had the addition of an AT symbol, signifying the club's affiliation with the Appalachian Trail Conference. 1 pc. Backed on wood. 3.25 x 3".

Engraving 2: Illustration of a moonlit trail through the woods, with an AT symbol on a tree in the foreground and the initials RLM, for the designer Robert Lindsay Mason (1874-1952), who was an early member of the SMHC and the first club historian (1930-1933). The sketch was first used in the 1957 SMHC Handbook, and was often used in handbooks for the next forty years. 1 pc. Backed on wood. 1.25 x 1.25".
